PROJECTS

"Fella" Artificial Intelligence App

01/2017 - 03/2017

Class group project

- We designed an AI application for International students who are new to US and who need assistance with the things to do.
- The AI will help them learn about different cultures and slangs. We have different features such as "GANG, location based Gamification and Chat"

"Golden Eye" Augmented Reality with contact lens

03/2017 - 05/2017

Class group project

- We designed an interface for an upcoming AR device.
- The main idea was to create holographic social interaction through contact lens AR technology.

EDUCATION

MS Human Computer Interaction
